Additional ultrasounds may be performed for medical necessity which range from \$200.00 to \$325.00 depending on the procedure required.

Additional lab tests may be ordered for medical necessity which would be \$20.00 for collection/processing. The actual test will be billed by Physicians Laboratory.

Circumcision cost (for a baby boy) is \$400.00 and is optional, (\$100.00 discount will be given)

This is only an **ESTIMATE** of what the cost of your OB care will be with our office, and is considered for a "routine" pregnancy. All office visits (usually 10-14 visits), urinalysis', hemoglobins and one post-partum visit at 6-8 weeks after your delivery is included in the Global OB Care charge.

The above charges are our general tests done throughout the pregnancy for a single gestational pregnancy (multiple gestational pregnancies will require additional tests and ultrasounds). **There may be additional lab work, ultrasounds or nonstress tests during the pregnancy which would be in addition to the charges above.** Amniocentesis and hospitalization during the antepartum care of the pregnancy are also additional.

You will have four bills from your pregnancy:

1. Associates in Womens Health, L.L.C.
2. Hospital bill (Methodist Women's Hospital or CHI Health-Lakeside)
3. Anesthesiologist
4. Pediatrician

If you have any questions throughout your pregnancy regarding any billing issues you may call Chloe at (402) 614-7421. Thank you.
