PAP/HPV patient informational handout

A pap smear has been done today. HPV (human papillomavirus) testing may also be performed based on your age, medical history, and results of this pap smear. If additional testing is required, there will be additional charges billed either by our office, or one of our reference laboratories (Physician's Laboratory or Quest Diagnostics). The HPV charge may be subject to your deductible because it is considered a diagnostic test instead of routine.

Please note that our physicians follow guidelines set forth by the American College of Obstetricians and Gynecologists (ACOG) regarding pap/HPV testing.

Your results will be available on our patient portal (www.myhealthrecord.com) within 2 weeks of being reviewed by your doctor (please contact the front desk if you have not received a portal invitation sent to your email). If follow up is needed we will contact you to discuss your results and schedule follow up treatment.
